

Why Should I Take THE SAT?

01

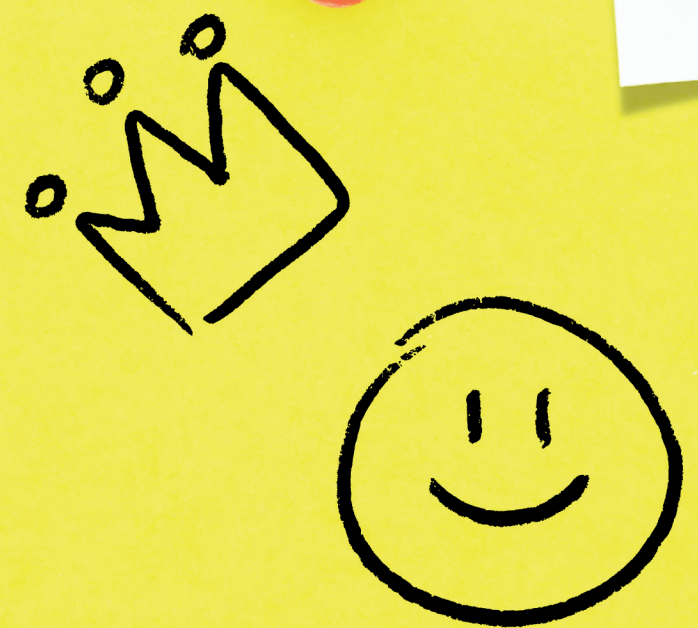

It's Free!

- LAUSD pays for all juniors to take it at school.
- If you want to retake it or take it on your own, you will have to register on collegeboard's website and pay the registration fee of \$68.

Save Time & Money!

- CC's, CSU's, UC's, and even some private universities use SAT scores to determine whether or not you can skip remedial/undergraduate math and English classes required for graduation.
- Saves money and time!

02

NOTHING TO LOSE

- Many merit-based scholarships require SAT scores.
- Keeps your options open (even if schools are test optional):
 - Strong SAT score will strengthen your application, even at test-optional colleges.
 - Score low? For most schools, you don't have to submit your score! OR you can register to take it again.
